

Adopting from Alley Cats and Angels

- All cats/kittens are FULLY vetted (over a \$375 value), including FeLV vaccination (we are one of the only rescues that vaccinates against FeLV. We do so in keeping with shelter medicine best practices. Adopters are provided with a complete medical record.
- All cats are fostered in home environment with love and care, so their true personalities shine through. We can tell you if they like to sleep with you at night, sit on your lap and watch TV, etc.
- We want every adopter to feel confident adopting from us, therefore:
 - We offer a 14-day guarantee on every adoption so that if it's not quite the perfect match, the adopter can return the cat to us for a full refund of the adoption fee.
 - We offer a health guarantee on our cats.
 - We make a lifetime commitment to our cats and will always take the cat back at any time for any reason.
- Each adopted cat goes home with a comprehensive information packet, catnip toys, and Pet Alert decals.
- Each adopter gets a demonstration of nail trimming.
- Members of Alley Cats' adoption team are always available to answer questions after the adoption.
